

Introduction

In this *What Else Can I Play?* collection you'll find sixteen popular tunes that are both challenging and entertaining.

The pieces have been carefully selected and arranged to create ideal supplementary material for young violinists who are either working towards or have recently taken a Grade One violin examination.

As the student progresses through the volume, technical demands increase and new concepts are introduced which reflect the requirements of the major Examination Boards. Suggestions and guidelines on bowing, fingering, dynamics and tempo are given for each piece, together with technical tips and performance notes.

Pupils will experience a wide variety of music, ranging from folk and classical through to showtunes and popular songs, leading to a greater awareness of musical styles.

Whether it's for light relief from examination preparation, or to reinforce the understanding of new concepts, this collection will enthuse and encourage all young violin players.
